MADE IN GERMANY

Podo

SteriHero

My autoclave. My **superpower**.

✓ Now available as a medical device

Your new **superpower**

No matter what big tasks the day holds in store for you, **SteriHero Podo** has your back. The brand new stand-alone Class B and S autoclave now complies with medical device regulations and is perfectly suited for podiatry: From the features to the price! Trendsetting technologies, an incredibly advanced display and the unique MELAG quality - made in Germany give you the superpower to change everything:

Now also available as
**Class B & S
autoclave**

Supersafe

Safety for your patients: Class B and Class S autoclaves with the fractional vacuum procedure provide the safest sterilization of all wrapped and unwrapped instruments - regardless of their type and complexity.

Class B and S steam sterilization according to EN 13060

Superstrong

More than enough power for whatever you plan to do: High loading capacities, fast cycle times from 13 minutes and effective vacuum drying ensure that your instruments are ready for use in no time.

Up to 5 kg on 5 trays

Supersmart

The intuitive user interface with a large Smart-Touch Display makes everything easier: From program selection to documentation. With the help of process monitoring, you can provide complete proof of a successful sterilization.

Documentation via USB, network or log printout*

Superrobust

An autoclave should never fail: We make no compromises when it comes to reliability and develop under the highest quality requirements at our headquarters in Berlin.

100 % quality - made in Germany

A dream team for your practice hygiene:

*„Our patients are our top priority:
With the system solution tailored to my
practice's needs, we offer maximum protection
with minimum effort.“*

Practice for podiatry, Vera Wille

*„We live up to our responsibility to use only
impeccable instruments to patients with our new
reprocessing workflow with solutions from MELAG.“*

Practice for podiatry, Reni Otte

Protects the environment. And your patients.

SteriHero Podo guarantees safe sterilization according to your needs with a wide range of programs. But that's not all: the pioneering stand-alone device concept and the Power Save energy-saving function make **SteriHero Podo** the cleanest solution - for your budget and the environment.
